CCHCC Annual Awards Dinner

34 Years of Grassroots Organizing for Health Care Access and Justice

Friday, April 8, 2011

powerful healing

About Us

Since 1894, Provena Covenant Medical Center has been dedicated to providing quality healthcare that is accessible to all people living and working in its region. The licensed 210-bed hospital serves 13 counties and has a medical staff of over 250 physicians representing various areas of specialized care.

Highlights

- Dual accreditation in both Chest Pain Center and Acute Heart Failure
- Area's largest inpatient rehabilitation center
- Accredited by the Joint Commission as an Advanced Primary Stroke Center
- Offering Sensei X® robotic technology for Electrophysiology procedures
- Champaign-Urbana's only e-ICU, which has contributed to timely interventions and positive patient outcomes

www.ildisciplesfoundation.org

Welcome

Champaign County Health Care Consumers, is a nonprofit, grassroots, citizen action organization founded in 1977 on the premise of participatory democracy and the belief that meaningful reforms in the health care system will come only with the active involvement of consumers. CCHCC believes that access to quality, affordable and timely health care is a fundamental

human right and a social and economic justice issue. For the last 34 years, CCHCC has been in the forefront of dealing with emerging issues in health care and fighting for justice, and winning concrete improvements in people's lives.

Thanks to your support and involvement, we've had another amazing year! In the area of client services, we have helped thousands of Champaign County residents who turned to us, desperately seeking health care services they could not afford.

In our community organizing efforts, we have conducted workshops on health reform, advocated for state and federal legislation, fought against harmful changes to Social Security and social programs, and advanced our "David and Goliath" environmental justice struggle – the 5th & Hill Neighborhood Rights Campaign.

We have also been instrumental in helping to build the single-payer health care movement in Illinois and are currently working to advance single-payer state legislation.

With your support, these campaigns will ultimately be victorious, the people's interests will be served, and the health of our community will be improved!

CCHCC has over 7,000 members who have dedicated themselves to fighting for justice in the health care system. Our struggles and victories are testament to this community's longstanding commitment to health care justice and to the people's willingness to act.

We collaborate with, and enjoy the support of many organizations and businesses in this community, many of whom are represented in this adbook. Please read through the adbook, celebrate the award recipients, learn about our campaigns and programs, and be sure to patronize the businesses and organizations that have taken ads, and thank them for supporting CCHCC.

We thank you for 34 years of support! We are deeply pleased to have you join us in this special celebration, and we hope that we can count on you to help us continue our commitment to, and struggle for justice in the years to come.

Sincerely,

The CCHCC Board and Staff

Special Thanks

CCHCC thanks the following individuals for helping to make this Annual Awards Dinner a success:

Jeff Machota – for Adbook design and layout Ron Keller – for Certificates of Award layout Allison Jones – slide show of year-in-review

Music provided by:

Jeff Helgesen - trumpet Chip McNeill - keyboard Ed Schaller - bass

Jim Bean - acoustic guitar & vocals

CCHCC Campaigns and Programs

Issue Campaigns and Task Forces

The Health Care Access Task Force was organized in 2007 to undertake a major community organizing effort to address the massive access to care crisis in Champaign County which has left tens of thousands of people locked out of the health care system, despite our county's ample supply of health care providers. Currently, the Task Force is focusing its efforts on working with our local hospitals to improve their hospital financial assistance programs, increasing access to care to local physicians as a result of the Carle merger, as well as working to shape health reform at the state and national levels. Over the past year, much of the work of the Task Force has focused on producing materials and organizing events to provide user-friendly information to local consumers about new benefits available under health reform. The Task Force is also actively advocating for passage of state legislation that would give the state the power to regulate health insurance premium rate increases, as well as working to advance single-payer legislation.

The Medicare Rights Task Force was formed in 2005 by Medicare beneficiaries demanding a voice in their health care. Currently the Medicare Task Force is working to create a REAL prescription drug benefit by supporting legislative reform to improve the Medicare Part D Prescription Drug Program. The Task Force is also working to protect and strengthen crucial federal and state programs for seniors including Medicare, Social Security, IL Cares Rx, and Circuit Breaker. The Task Force provides a forum for local Medicare beneficiaries to discuss the issues affecting seniors and people with disabilities who have Medicare, and learn about services that are available in our community to help.

The 5th & Hill Neighborhood Rights Campaign is an environmental justice campaign dedicated to protecting the health of the neighborhood residents and the rights of the community in relation to the former manufactured gas plant toxic site owned by Ameren, located at 5th and Hill Streets in Champaign. CCHCC is organizing this campaign in collaboration with neighborhood residents and former residents. The Campaign is currently focused on trying to make the IL EPA and Ameren expand the area of investigation in order to identify all toxic contamination that resulted from the operation of the former manufactured gas plant. In addition, the Campaign is working to repeal a dangerous citywide groundwater ordinance that lets polluters leave

continued on next page

toxic contamination in the groundwater.

The Disability Rights Task Force was formed in 2004, and is led by community members with disabilities, to work for improving the quality of health care available to people with disabilities in our community. Ultimately, the Task Force hopes to see all health care facilities in our community become fully physically accessible, while being committed to, and ensuring staffing capable of providing "patient-centered" care.

Dental Access. CCHCC has a long track record of community organizing to expand access to dental care for children as well as adults. CCHCC worked with local dentists to establish the Dental Referral Program (read description below) in 1992. Then, in 2001, CCHCC organized the Dental Access Working Group, which led to the creation of Champaign County's Child Dental Access Program in 2002. Currently, CCHCC is working with Carle Foundation Hospital, Provena Covenant Medical Center, SmileHealthy, and others to expand access to affordable dental care for low-income adults and adults with Medicaid insurance.

For more information on these and other campaigns, please visit CCHCC's website at: www.healthcareconsumers.org

Service Programs

The Medicare 100/Plus Program, created in 1984, assures access to affordable health care for Medicare beneficiaries in Champaign County. This community-based program is a collaboration between CCHCC and Provena Covenant Medical Center, and Provena United Samaritans Medical Center. The Medicare 100/Plus Program bridges the gap between health care costs and what Medicare reimburses.

The Consumer Health Hotline, which has been serving Champaign County since 1980, is a unique service that operates under the motto of "empowering consumers to help themselves." Consumers who call the Hotline work with volunteer advocates to obtain the resources and skills that enable them to effectively deal with the health care system. The Hotline receives over 300 calls per month.

The Dental Referral Program was created in 1992, to provide low-income uninsured Champaign County adults with access to quality, affordable dental care. The Dental Referral Program is a collaboration with area dentists to provide dental care at a discounted rate to low-income adults in our community.

For more information on these programs, please visit CCHCC's website at: www.healthcareconsumers.org

In memory of Lester, we would like to congratulate the recipients of the Lester T. Pritchard Citizen

CARLE COMMUNITY CARE DISCOUNT PROGRAM

Times are tough

Luckily, getting help with your medical bills is easy.

Carle wants to make sure our patients have access to high quality care, whatever their insurance coverage or ability to pay. These uncertain economic times have strengthened our belief that no one should have to let financial concerns come between them and necessary medical treatment.

Our Community Care Discount Program is open to qualified applicants who are having difficulty paying their Carle medical bills, whether it's a copayment or the entire bill. And with the integration of Carle Foundation Hospital and Carle Physician Group last year, we can offer assistance not just for hospital services, but for qualifying doctor's office visits and outpatient procedures as well.

We offer an easy application process, knowledgeable representatives every step of the way, and the ability to pre-apply for financial assistance.

To learn how to apply for the Community Care Discount Program, call toll-free (866) 71-CARLE, or visit mycarlebill.com.
