Welcome

Thank you for joining Champaign County Health Care Consumers (CCHCC) for this very special Annual Awards Dinner, celebrating CCHCC's 35th anniversary!

For the last 35 years, CCHCC has been in the forefront of working to improve our community's health, dealing with emerging issues in health care, fighting for justice, and winning concrete improvements in people's lives. And we could not have done it without you!

Let's take a quick look at some of the great things we have accomplished together for our community over the last 35 years. We created a prenatal care program for low-income women, the Dental Referral Program to serve low-income adults, a school breakfast program to serve rural county children, and the Medicare 100/Plus Program to serve low-income Medicare beneficiaries. We organized to create the Champaign County Public Health Department to serve Champaign County residents, and the Child Dental Access Program to serve low-income county children. We have organized to stop numerous unjust practices and unjust legislation. And we have organized to advance good policies and helped pass state and national laws to improve people's lives.

We have provided free help to thousands of community members who needed health care and had nowhere else to turn. We advocated with and for them, and helped them gain access to the health care and social services they needed.

We are facing challenging times now, but I believe that CCHCC's own history shows that we are capable of facing the challenges ahead. And if we ever get tired or discouraged, we should think of our victories – see how much, together, we have accomplished! And then think where we would be, had we not organized and fought for justice.

So, as we look ahead, let us take our comfort and inspiration from our own history of achievement, of struggle for the greater good. And let us also remember the immortal words of Martin Luther King, Jr. – *"We shall overcome because the arc of the moral universe is long, but it bends toward justice."*

Thank you for 35 years of support! And thank you for your ongoing involvement and support as we continue our work for justice, and the work to improve our community's health – it takes all of us to make good things happen!

Sincerely,

A handwritten signature in cursive script that reads 'Claudia Lennhoff'.

CCHCC Campaigns and Programs

Issue Campaigns and Task Forces

The Health Care Access Task Force was organized in 2007 to undertake a major community organizing effort to address the massive access to care crisis in Champaign County which had left tens of thousands of people locked out of the health care system, despite our county's ample supply of health care providers. Currently, the Task Force is focusing its efforts on working with our local hospitals to improve their hospital financial assistance programs, increasing access to care to local physicians, as well as working to shape health reform at the state and national levels. Much of the work of the Task Force has focused on producing materials and organizing events to provide user-friendly information to local consumers about new benefits available under health reform. The Task Force is also actively working on multiple fronts including advocating for single-payer legislation, and working to create a non-profit health insurance CO-OP.

The Medicare Rights Task Force was formed in 2005 by Medicare beneficiaries demanding a voice in their health care. Currently the Medicare Task Force is working to protect and strengthen crucial federal and state programs for seniors including Medicare, Social Security, IL Cares Rx, and Circuit Breaker. The Task Force provides a forum for local Medicare beneficiaries to discuss the issues affecting seniors and people with disabilities who have Medicare, and learn about services that are available in our community to help.

The 5th & Hill Neighborhood Rights Campaign started in 2007, is an environmental justice campaign dedicated to protecting the health of the neighborhood residents and the rights of the community in relation to the former manufactured gas plant toxic site owned by Ameren, located at 5th and Hill Streets in Champaign. CCHCC is organizing this campaign in collaboration with neighborhood residents and former residents. The Campaign is currently focused on trying to make the IL EPA and Ameren expand the area of investigation in order to identify all toxic contamination that resulted from the operation of the former manufactured gas plant. In addition, the Campaign is organizing to ensure that neighborhood residents have a voice in the re-development of the Ameren property, which has now been "cleaned."

continued on next page

The Disability Rights Task Force was formed in 2004, and is led by community members with disabilities, working to improve the quality of health care available to people with disabilities in our community. Ultimately, the Task Force hopes to see all health care facilities in our community become fully physically accessible, while being committed to, and ensuring staffing capable of providing “patient-centered” care.

The Campaign for the American Dream, founded in fall 2011, is a local grassroots organizing effort to support the growing nation-wide “American Dream” movement. The American Dream movement is a movement for comprehensive, progressive change so that Americans have access to affordable, quality health care, can find jobs, afford to go to college, retire with dignity, and secure a future for their children and their communities. The Campaign for the American Dream organizes local residents to take action as part of the national movement.

Service Programs

The Medicare 100/Plus Program, created in 1984, assures access to affordable health care for low-income Medicare beneficiaries in Champaign County. This community-based program is a collaboration between CCHCC and Provena Covenant Medical Center. The Medicare 100/Plus Program bridges the gap between health care costs and what Medicare reimburses by providing Medicare 100/Plus members with discounts on their out-of-pocket Medicare related charges at Provena Covenant hospital and certain physician practices.

The Consumer Health Hotline, which has been serving Champaign County since 1980, is a unique service that operates under the motto of “empowering consumers to help themselves.” The Hotline helps people who are having problems with the health care system. Volunteer Hotline Advocates help people get the health care and other services they need. The Hotline receives hundreds of calls each month.

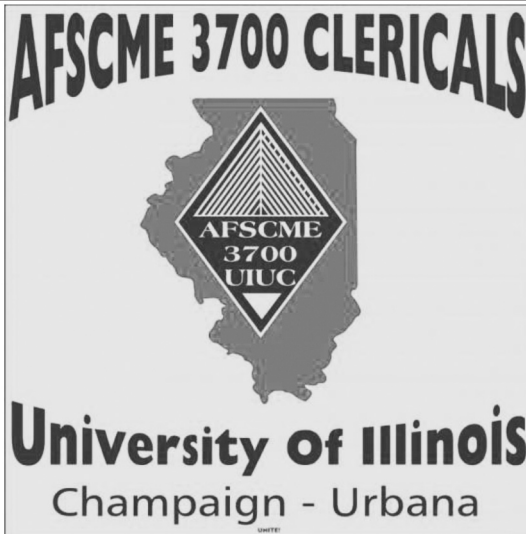

The Dental Referral Program was created in 1992 to provide low-income, uninsured adults with access to quality, affordable dental care. The Dental Referral Program is a collaboration with area dentists to provide dental care at a discounted rate to low-income adults in our community. CCHCC screens and qualifies the clients and schedules their dental appointments with the participating dentists.

This page has been left [mostly] blank so that the reader might observe a moment of silence and/or prayer as we collectively will the Supreme Court to think of the millions who will benefit from the Affordable Care Act rather than focus on the esoteria of “enumerated powers” and “states rights,” do the right thing rather than devolve once again to the partisanship that has undermined the Court’s legitimacy.

Paid for by *The Mueller Kids* (“We don’t need no stinking SuperPAC!”), plaguing central Illinois since 1948, who couldn’t care less who approves of the content. In memory of Bill, whom we suspect would have an appropriate gesture for the conservatives on the court to accompany a suggestion to “enumerate this!”
