

FACES OF HEALTH REFORM

How Health Reform Will Help...

Problem: Paulette has health insurance through her employer but her premiums go up every year and her employer is struggling to continue to offer her coverage.

Health Reform Solution: Health reform legislation will require health insurance companies to adopt and implement uniform standards and rules to reduce paperwork and administrative costs. Health reform will also require insurance companies to spend 80-85% of all premium dollars on actual health care rather than administration and profit, which will keep premiums from continuing to rise at such high rates every year.

WE WANT YOU TO VOTE YES FOR HEALTH REFORM!

Faces of Health Reform is a project of the Champaign County Health Care Consumers' (CCHCC) Health Care Access Task Force. To be a Face of Health Reform or learn more about health reform, please call 217-352-6533 or go to www.healthcareconsumers.org.
