

Help make Health Care for All Illinois a reality!

Attend the Community Legislative Hearing on House Bill 311

House Bill 311 (HB 311), The Health Care for All Illinois Act, is legislation in the Illinois General Assembly that would create a statewide single-payer health insurance program to provide comprehensive health benefits to all Illinoisans. Features of the single-payer plan include:

- **Comprehensive coverage for all Illinoisans** including doctor, hospital, long-term, mental health, dental and vision care, as well as prescription drugs and medical supplies.
- **No premiums, co-payments, or deductibles** that inhibit access to care and unfairly burden low-income people.
- **Pays for itself** by eliminating wasteful private insurance administration and profit (which currently accounts for over 24% of every health care dollar, and is on the rise). Modest, progressive taxes (including employer taxes) would replace what is currently paid out-of-pocket.

Please attend this Community Legislative Hearing on HB 311 to learn more about how we can create a single-payer health care system for all in Illinois! Community members are invited testify in support of the legislation, and to share their health care stories.
All are welcome to attend!
